Town Meeting.—At the annual Town Meeting held on Tuesday last, the following officers by some curious coincidence in the ballots were declared elected:
Chairman—Superior—H. H. Newberry
Superior—John Carlson
Supervisor—F. G. Taylor
Assessor—L. W. Folson
Treasurer—O. H. Rogers
Clerk—Wm. Conner
Justices of the Peace—L. Wyckoff and M. M. Humphrey.
Candidates for the various offices were as plenty as huckleberries in the Fall, there being fifty one names in the field. There were scarcely any two tickets alike throughout. Every voter balloted for his own individual choice. The most excitement manifested was in the election of constables and overseer of the poor—probably from a disposition to provide for any contingencies that might arise in the future. About twenty candidates were brought to bear on these two offices.

School Meeting.—The annual school meeting in District No. 1, held on last Saturday evening resulted in the election of the following officers:

Director—J. L. Taylor.
Treasurer—Charles B. Whiting.
Clerk—Frank S. Edley.

Sufficient money being found in the treasury for school purposes for the ensuing year, no tax was levied. In the 2nd District the following officers were elected:

Director—George L. Blood.
Treasurer—W. H. C. Folson.
Clerk—Chas. W. Folson.

A tax of 6 mills on the dollar was voted for special school purposes. The amount of \$200 was voted to be raised for school during the months of May, June, August, September, November, December and January, next ensuing.

Home Again.—The lumbermen have again returned to their homes from the winter's sojourn in the pines. Nearly all the teams have stopped hauling and left the woods. The logging teams have had an excellent chance for the last few weeks, and improved it by doing a great business. The number of logs cut will much exceed what was anticipated in the fall—the good weather of March compensating for the lack of snow in December. The amount of logs put in on the St. Croix and its various tributaries we hear estimated by reliable and experienced lumbermen at 125,000,000 feet; worth any from \$12 to \$18 per thousand. No better season, taken all in all, has been experienced by loggers for the past 25 years. The cash returns from the spring sales will lubricate all the wheels of business and add a new impetus to every branch of industry.

On the opening of navigation, Saint Paul will have two mails daily from Chicago.

Mr. Shas. Humphrey is now in possession of the entire stock of Dry Goods, Crockery, Hardware, Groceries, &c., of the late firm of Whiting Bros. Probably no merchant has ever been in trade in Taylor's Falls that gave better satisfaction to all concerned than Mr. Humphrey. Long experience in mercantile business will enable him to buy his goods on such terms as will warrant good bargains to his patrons. "Hale fellow, well met," is the unanimous verdict. Jovial, generous, and an inclination to always deal on the square, will make his establishment the headquarters of a large and increasing trade.

There is a prospect for lively times stamping on the Lower St. Croix the coming season. The Northern Line will run three or four boats to Hudson; the *Jennie Baldwin* will make semi-weekly trips to La Crosse; An independent line will run four boats to Duluth; the *G. H. Gray* will make daily trips to St. Paul, connecting with the *Pioneer* at Stillwater for this place. There will be a lively competition we should judge.

RETIRED.—Sam'l S. Fifield, Esq., editor of the *Polk Co. Press* has returned from Madison, and again assumed control of its columns. His brother "Hank" retired from the chair editorial last week. He has for several months had the entire supervision of the concern, and discharged his duties with honor to himself and to the utmost satisfaction of his readers.

THE F. M. L. CHOCOLATE STORE is now open to the public under the supervision of S. S. Hamilton, our former Sheriff. Mr. Hamilton's wide acquaintance, especially among the foreign population of this country, would seem a sure guarantee of success. We opine that it will become a favorite resort for those desiring goods in his line.

The weather is decidedly "soft." The streets have been through the trying ordeal of mud, and have commenced drying up. The "low hung clouds" have every appearance of soon "dropping their garnered fallacies down." April has come—a child, half tears, half smiles, and full of little playful wiles.

"All Poot's Day" passed off without being marked by any special, wholesale, jokes or other species of practical annoyance of any magnitude that has come to our knowledge.

A COMMITTEE, designated to examine candidates for appointment to a cadetship at West Point, will meet at Saint Paul on the 27th of April. This is a fine opportunity for the young students of the 2nd district to display their scholarship.

The article of hay has attained a high figure. It retails on our streets at a cent and a half per pound. Small purchases are made and hay tea is becoming a favorite feed for stock. In Stillwater it brings \$40 a ton.

HARRY MCCOY, the popular clerk in the "Pioneer" Store has pulled up stakes and gone to Prescott. He will be found during the summer in the clerk's office of the *G. D. Knapp*.

MARRIED.—On Saturday, March 30th, 1867, at Osceola Mills, Wis., by the Rev. J. Q. Hall, Mr. David S. Clark, of Taylor's Falls, to Elizabeth M. Gillet, of Horse Creek, Polk Co., Wis.

FIFTY HUNDRED MEN are said to be engaged in the Upper Mississippi pines. The dual cities claim six hundred of them.

A new building designed for a meat market has been erected on Bench street, nearly opposite the drug store of H. Murdoch.

OPENING OF NAVIGATION.—The St. Croix ice is yet as "tight as a brick." We look for the opening of navigation about the 4th of July.

DIED.—A baby boy of John Payne's, aged about 14 months, died on Sunday morning the 31st ult., after a brief illness.

The State constabulary of Massachusetts, are steadily diminishing the number of bar-rooms in Boston. On Monday last, there were not more than two dozen places left where liquor was retailed, and these will speedily suspend operations.

MINNESOTA NEWS.

The Republicans of St. Paul have nominated J. J. Shaw, of the Merchants Hotel for Mayor.

The old City Hotel building of Redwing was burned last week Tuesday. Rev. Jabez Brooks of Redwing received \$100, as a donation last week.

Several years residence constitutes a man an "old settler" in Hastings. Almar Harrington, Winona, Minn., has received a cadetship to West Point.

A windmill for grinding grain has been built and is now in operation in Blue Earth City.

Hawks, the man charged with having shot his wife in St. Paul, has been admitted to bail in the sum of \$3,000.

OVERLAND.—The Minneapolis *Adelphi* learns that Messrs. Torbank & Merriam have been in Washington city for the purpose of making a proposition to the Post Office Department to establish and run a line of stages from Minnesota to Montana via the northern route.

The United States Government will extend proper protection and create a mail route.

In a suit against Captain V. F. Davidson and H. T. Ramsey, of La Crosse, the jury rendered a verdict of \$5,000 damages for crippling Alvin D. D. Fay, by the explosion of the steamer *John Ramsey*, while racing in 1864, within sight of St. Paul.

Capt. Wm. E. Davidson has recently purchased all the real estate interest of John Randall and Alexander W. Davidson, in the city of St. Paul, consisting in part of lots on the west side of Jackson street, from Third street to the river, including Constans' warehouse, and other levee lots; also one hundred and fifty feet on Jackson street, corner of Fifth, besides a variety of lots in other parts of the city.

The Climate of Minnesota.

The climate of Minnesota is described by one who has enjoyed it for many years in substance as follows: In January the thermometer registers about zero, thought it often above that below it.

Most years there is about a week of excessive cold weather, when the mercury falls to thirty or forty degrees. February usually contains the coldest days. March is about the same as February, but with a steady falling of the thermometer. It is the month of maple sugar. April is given up to ploughing and sowing. Corn is usually planted by the 15th of May. The weather begins to get warm, the mercury often rising to eighty or ninety degrees in the shade. June and July are very hot months. In June everything grows with startling rapidity. July has deliciously cool nights. August is a delightful month, as cool breezes know no season. September is generally honored with a light touch of frost. October is the most enjoyable month of the year. It is usually ushered in by a heavy frost, which is not repeated for ten or twelve days. November and December are marked by a steady falling of the thermometer. Between October and March rain is a great rarity. During the summer months it is very frequent and heavy down falls. Snow is never deeper than two feet on a level. Sleighing lasts every year for two months.—*Springfield Mass.* Union.

Local Notes.

What is the best thing to do in a hurry? Nothing. We know of but one exception to this rule, and that is to make haste and get some of those nice fresh groceries at Hamilton's Cheap Cash Store. He is constantly making additions to his stock, and his patrons can rely upon obtaining good articles in every branch of his trade.

Good Cooks.—Ladies if you would be known as good cooks, and would avoid the mortification of having poor biscuit for tea when you have company, use D. R. De Land & Co.'s Chemical Saleratus, and that only.

A "down east" debating club has been recently arguing the question: "Which is the most effective agent in the reduction of the population of civilized countries—War, Cholera, Switchmen or Billions Complaints?" After a warm and animated debate it was decided that the latter had proven by far the most disastrous, until the discovery of the now celebrated *Roback's Stomach Bitters* and Scandinavian Blood Purifier and Blood Pills.

The club therefore, actuated by a spirit of philanthropy, have determined to recommend them to the public as preventive of cholera and certain cure for all diseases resulting from Billions' affection, and to inform them that they are prepared by Prince, Walton & Co., Nos. 58, 59, 60 and 62 East 3d st., Cincinnati, and are for sale by all respectable druggists.

Lums, Lums, Lums.—Everybody is anxious to know where they can get some Fresh White or Brown Lime. Now we will tell them the best place. It is at Fraconia at Thornton's Lime Kiln. Remember the place; all orders promptly filled.

Buy your Furniture at Osceola Mills, Polk Co., Wis., the cheapest and best establishment in the St. Croix Valley. Either at Wholesale or Retail. All work warranted and satisfaction guaranteed. Planning, Matching, Scroll Sawing and Job Turning done to order. All orders should be addressed, J. A. Whitney, Osceola Mills, Polk Co., Wis.

Local and Miscellaneous.

BASE BALL CLUBS are being formed in the principal towns throughout the State, and the example is well worthy of imitation here.

LOG JAM.—We notice that the logs have commenced running on to the head of the body of ice in the falls, and quite a jam has already been formed. If the logs continue running until the ice in the falls breaks up, we shall be able to chronicle our "regular" log jam.

ACCIDENT.—We regret to learn that Capt. Cy. Bradley of the steamer *Minnie* will lose one of his fingers on Thursday while engaged in arranging the tiller ropes.

FOR SALE.—In another column will be seen an advertisement of a house and lot for sale. Persons wishing to purchase will find this a very desirable bargain.

THE TALL, IMPOSING FORM, so well known hereabouts under the sobriquet of "Zollicoffer," has come to grief at Minneapolis. He was first arrested for larceny, and immediately on his release from this charge, was re-arrested and in default of bail was committed to jail to await his trial at the next session of the district court.

FROM SOME UNACCOUNTABLE REASON butter and eggs are very scarce in this market and command a high figure.

LAW.—Last week we published in supplement form, the General Laws of this State, passed at the last session of the Legislature. Every family should preserve them. A few copies of the Supplement of last week can be obtained at this office.

MARRIAGE.—A few days ago we "dropped in" on our friends Mark and Eli, at their cozy quarters out in the "bush." To say that they enjoyed the visit is a tame commonplace. They invited us into the mysteries of that interesting process called "sawing off," and boundlessly supplied us with the way they felt until we were forced to cry "hold, enough!" We success attend their labors.

SCHOOL.—The School in District No. 1, will open on next Monday under charge of Miss Snow.

STATE FAIR.—At a regular meeting of the State Board of Agriculture, held in St. Paul last week, it was decided to hold the annual fair at Rochester.

TAX LIST.—Next week we are in hopes to be able to present to our readers the annual list of land in this county on which the tax is delinquent.

THE SNOW has disappeared so gradually this spring, and we have been favored by such continued pleasant weather, that there has been scarcely any mud on the streets this spring.

NEW LEVER.—Messrs. Bronson, Cover & Co., are building a levee in front of their ware-rooms on the lake shore, at Stillwater.

RATES OF FREIGHT.—At a meeting of the representatives of the different lines interested, held at Chicago, March 25th, the following rates were adopted for transportation of freight from Milwaukee or Chicago to Prescott, Hastings, St. Paul, Hudson or Stillwater. In addition to this year's rates we publish the tariff adopted last year. Can this increase of 25 per cent in tariff rates be considered the legitimate result of the recent anti-monopoly excitement? Put the tariff rates adopted for this year, in comparison with the following item:

This N. W. Union Packet Co., have reduced the wages of their employees from 25 to 50 per cent. below last season's rates.

Prophecy Fulfilled.

While engaged in overhauling a pile of old papers in a neglected corner of our sanctum, recently, we happened on the following prophetic words in a communication to the *New York Independent*, signed "Aristides," and dated soon after the first time Mr. Lincoln had assumed the Presidential chair. Looking back through the dark shadow of years of bitter strife, to its first inception, when the amount of advice wasted on the President was beyond calculation and modest counsellors spoke through the columns of nearly every newspaper in the land, these words appear to have been written by the pen of inspiration. That they were fulfilled to the very letter, millions of "grateful, happy, ransomed people" bear witness:—"Restored the Union with peace, fraternity and love, make us once more one people, and unfold a scheme for the deliverance of four millions of another race from the bondage of servitude, caste, color and condition, raising them to the enjoyment and condition of an independent people, with a high destiny of their own to be worked out, and then, Mr. President, die." Your grave shall be in the hearts of a grateful, happy, ransomed people, and infant lips and old men's tongues to the last syllable of recorded time will link your name with Washington.

DRIVING.—After enjoying a respite of a few days, the lumbermen have most of them returned to the piers for the purpose of "driving in" the fruits of their winter's labors.

DIED.—At Sunrise City, Thursday, April 11th, 1867, Benjamin A. Plummer, aged 28 years and 7 months, of disease of the brain, occasioned by injuries received in a severe fall about a year before.

PRINTING OFFICE RULES.—An editor, the reminiscences of whose massive intellect are at times disturbed by indolent callers, has evolved the following rules for the guidance of those whose good or evil angels may lead them into that sanctum sanctorum of knowledge—a printing office:

1. Enter softly.
 2. Sit down quietly.
 3. Don't enquire for the news.
 4. Subscribe, or pay for the paper as the case may be. [Such callers are always welcome.] If you pay in advance for the next year you may chat a brief moment with the editor.
 5. Keep six feet from the table.
 6. Never look at manuscript which may be lying around loose, or read the proof sheets.
 7. Don't talk to the compositors, and keep your hands off the types.
 8. Never stop your paper. It is a sure sign of a terribly depraved mind.
 9. Don't offer any original poetry, or moral essays.
 10. Clear out as soon as you have transacted your business.
- These are the ten great rules, a strict observance of which will entitle any sane man to receive the editorial benediction, and a specimen copy of the paper during his natural life.

RIVER.—The ice has been rapidly wearing away in the river at this point. The river will probably be open from this place to Stillwater by the 14th inst. At all events the *Minnie* will be expected to arrive at this place next Monday.

This state treasurer, in reply to a gentleman from Mankato, certifies that the Farmers Insurance Company, of Rochester, the Rochester Insurance Company, the Home, of St. Paul the Minnesota Mutual, of Mankato, the Rock River, of Rockford, Ill., and the American of Freeport, Ill., have each and severally failed to comply with the statutes of this state authorizing them to do business, and therefore any agent representing them is liable to be dealt with for violation of law. Our readers should beware of their traveling agents. They will thus save their money, a deal of trouble and vexatious lawsuits.

The citizens of Pierce County have organized an association to erect a monument to the memory of the soldiers who fell in battle from that county. They expect to raise at least \$2,000.

ALL SORTS.

The number of Indians in the United States at present, is 585,774.

A young man with a glass of liquor in his hand, should consider which it is best to throw away, the liquor or himself.

A TURKISH troupe, composed of Good Templars, was to play for the Rochester people last Saturday evening.

In some of the villages of Prussia one-third of the population will leave for America in the spring.

ARTHUR Ward says: "Brigham Young has 200 wives—he loves not wisely but too well." The pretty girls in Utah mostly marry Young.

The number of newspapers in Iowa is one hundred and twenty-five, twelve of which are dailies, one agricultural and one educational. Eighty-five are Republican and twenty Democratic. Five women are editors. An exchange remarks that women has some of her "writings" in that State.

Local Notices.

Planning, Matching, Scroll Sawing and Job Turning done to order. All orders should be addressed, J. A. Whitney, Osceola Mills, Polk Co., Wis.

HEARTBURN.—So called from a gnawing pain and heat about the region of the stomach, accompanied with nausea, and the belching of a thin watery acidulous liquid, especially in the morning, are the common symptoms. To rid yourself of this troublesome complaint, avoid articles of food that easily undergo fermentation, take Rusk's Stomach Bitters three times a day, in water, and adhere to a dry diet for a short time, and you will find yourself cured.

MERCHANTS.—Are you willing to buy a certain number of pounds of Saleratus and only get so many papers containing 14 or 15 ounces? Buy *De Witt's Saleratus* and you will get full weight and best goods.

GREAT EXCITEMENT.—Where is the rush? Why, everybody is rushing to S. S. Hamilton's New Grocery Store at Candey's old stand, where they get groceries, fruits, candies and toys cheaper than the cheapest. If you don't believe it go and see for yourselves and secure a good smoked ham.

Taylor's Falls, April 13, 1867.

LEWY.—March 6th was Ash Wednesday, the commencement of Lent. Ash Wednesday is called so from the emblems of mortality which are placed on the foreheads of the members of the Roman Catholic Church by the priesthood to denote their origin and the end of their earthly career. The ashes used on the occasion are made of the palms which were consecrated on Palm Sunday in the previous year. To a large portion of the religious world, Ash Wednesday proclaims the cessation of all the common and extraordinary pleasures of other seasons of the year. Among the members of the Roman Catholic and Episcopal Churches, especially the popular branch of the latter, known as "High," balls, parties, theatres and kindred amusements are unpopular during Lent, and as the cycle approaches towards Easter, the patronage of the places of public resort is proportionally diminished.

THE UNDISCOVERED COUNTRY.

Could we but know
The land that ends our dark, unknown way,
Where the happy hills and meadows grow,
Ah, beyond the spirit's inner veil,
Anchored at that country could we surely know,
Who would not go?

Might we but hear
The lowing, bleating, high-lifted choros,
Or catch, betimes, with wakened eye and clear,
The radiant view of the realm before us,
With one bright moment given to see and hear,
Ah, who would fore?

Were we quite sure
To find the perfect field, we left us lonely,
Or there, by some celestial stream, as pure,
To gaze in eyes that were so lately dim,
This weary heart of mine, quite sure,
Who could endure?

ARTIST'S WARD.

By GEORGE ALFRED TOWNSEND.

POET CHARLEY BROWN. * * *

He was a showman in the fullest sense, his associates

and aspirations being always for the cap-

and-bells, and his choice of a character to

express his humor being from the legiti-

mate old wax-work exhibitor.

I think his life ought to receive more

than a paragraph's attention; because, as a

popular humorist, he was representative

of the habits and affluence of his class,

while in origin he was an individual as the

hero of a showman's tale.

"With about enough education for a

sign-board," as he himself said, a lean,

provincial, adventurous, not midway to the

golden rule, he was a native of the old

East, his dialect of the most nasal Down

Eastern, made to match his dress, young

Brown, left his school in a printing office at

Shrewsbury, Maine, and came to Boston for

his fortune. He dropped by chance into

the office of a laughing book publisher,

called the *Carpet Bag*, where by a series of

good humor were collected together B. P.

Shillaber ("Mrs. Partington"), John G.

Steele, and Chas. G. Halpin ("Miles O'Reilly").

Ward attracted no attention

beyond his unobtrusiveness, as he was prob-

ably the best model of the traditional Yan-

kee boy that Lowell or Trowbridge could

discover. His nose was a keen aquiline,

very mobile and mobile, and in the case of

the palest Indian, redeemed from coldness

by their constant twinkling; he had a coun-

try boy's high complexion, "a tow-head,"

an irascible, versatile mouth and chin, and

more than a due allowance of neck and

legs. At first he was a promising compos-

itor, but his heart was not in it; he was

passing to the theatre; he despised small

things, and found in the smart spirits around

him no great inducements to cultivate

method as a fine art. About as frowny,

good for nothing disciple of Gutenberg as

ever filled a "sit," Ward was quite spoiled

as a compositor when some of his jokes

were admitted to the *Carpet Bag's* columns.

From his example, here he was, he in-

built up the phylology and orthography

of the future *Artemus*. Shillaber's old lady,

mispronouncing and maddening, Halpin's

political acrobacy, and Steele's satire of so-

cial things, combined promptly in the indom-

itable old showman, and took Ward's future

individualities.

It is to be suspected that he ceased to

adorn the mechanical office, and after a

year or two, with that errand which

he carried with him, he was discovered at

a small town in Ohio named

Tiffin, whither he had walked with a bun-

dles on his back, and came to the

Tiffin he assumed the responsible duties of

local editor and general compositor, at four

dollars per week, and soon became known

for the quackery and portness of his per-

graphs, many of which were picked up by

the neighboring weekly newspapers, and

circulated to the detriment of his own

little notoriety they obtained him was

of no immediate good result. He received

no promotion to a more responsible po-

sition, and he was left to the fate of a

man in Tiffin, and these took up the

burden of his career. He was a favorite

text-book because the bottom of a trouble-

some People in Tiffin remember him still, in the

luxury of new apparel, purchased by a

notice of our enterprising townsmen, and

into some better request in Cleveland, but

the echo of his fame came clearer back to

him than to the townsmen. As last his

great opportunity arrived in an applica-

tion to make New York his home and re-

vive the sinking fortunes of *Vanity Fair*. In a

few months time he had arisen from the so-

cial rank of a "tramp" compositor, to edit

the best attempt we have ever had in

America.

Now the purposelessness bore

its fruit. Those who expected to meet an

unkempt, hoarse, haggard, found in the old

showman a tall, young man, the equal of

anybody in courtesy and *finesse*, made

of him a figure of many a roving

companion, and accepting his inaugu-

ration with a mixture of flattery and

enthusiasm. All that was memorable in

Vanity Fair was written by him. The

most incongruous, illogical, eccentric,

and ninth-strung that he ever penned. If

there had been previously any quarter

where he was unknown, these letters ad-

vertised him, and the wonderful knack he

had of making friends of journalists at

large, gave every fragment universal cir-

culation. At the time of his death he had

probably more letters of newspaper ac-

quaintance than any known man.

Brown changed his designs in life, but

not his friends. Those that were good

and true, he kept to the end. He was a

man of his word, and his favorite was

the last. He did not believe that humor was

ability, and therefore did not trouble him-

self with self-satisfaction, and he never

showed. Jealousy he never understood. But

he insisted upon getting the fullest reward

for his work, and the business of his life

was divided between enjoyment and money

making. Writing never paid him anything

of consequence, even his own work. He

was informed, not to himself but to

others, that he had made a fortune of

thousands of dollars, and they included almost

the whole sum of his compositions. Here

was the man who had written the best

instance of *Vanity Fair*, and after its de-

cease made his first peripatetic journey.

At first he was a lecturer, without

conscience, flattery, uncertain in style.

Eventually he triumphed over these defects,

and became a lecturer of the highest

order. He was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

order, and he was a man of the highest

kind. It is to be feared that his money

sedition went to worse than his

not believe in philanthropy. He was a

thoughtless fellow, without indignation,

or momentary, and his personal in-

fluence was more for fun than for use-

ness.

He made his lectures and writings,

probably seventy thousand dollars. It is

my belief that his surviving assets will

amount to twenty thousand dollars. Money

came too unexpectedly, and with too little

effort to him, to make him other than a

speculator. There were opportunities

in his life, and many of them; but the

repugnance of his country was too much

for him, and he was, by his own choice,

rather than by poverty. The laughter that

he raised never overtook any social or

political wrong. It was laughter for

laughter's sake. He attacked only the

grosser absurdities that were laughable in

himself, and he loved a humorous quite

as much as a humanitarian. It is palpable

from his letters in *Pease*, either that he

despised universal adulation, or was too

weak to affirm it; and his life was an easy,

rolling, cosmopolitan selfishness, en-

tirely in keeping with the character he

created for himself. He was the best of our

humorists, because there was so little art in

his work. It was inconspicuously and in-

stantly followed. Other men could sit

more—some could be so broad and old.

Destiny is kind to most men, and Ar-

temus Ward was no exception. He was

Jack Tyler, of Cleveland, two months ago,

to this effect:

"I was a comedian of no mean order of my life.

To have been as well appreciated here as

at home, to have written for the oldest

comic journals in the English language,

received the highest honors in a distin-

guished career, and to be able to do so

work, and to be able to do so, is a great

Local and Miscellaneous.

SATURDAY, April 20, 1866.

The steam saw mill commenced operations on Monday.

The last session of the New York Legislature have made Abraham Lincoln's birthday a legal holiday.

The "drifts" are progressing finely as far as heard from. The river is at a good driving stage, and "every prospect pleases."

The newspaper publishers of Wisconsin are endeavoring to organize among themselves a joint stock company, to engage in the manufacture of printing paper.

Attention is called to the new advertisement of Mr. D. A. Canaday, elsewhere in our columns. His Flour and Feed business will supply a want long felt in this community.

The delinquent list for Chicago County, we publish this week. There will be found the names of the delinquents on the tax rolls with the amount of indebtedness set opposite their names.

Small gorges of logs and ice formed in the dells two or three times or so last week. A small crew of men, however, managed to break them as fast as they formed, and the dells are now clear.

The weather is now very Aprilish—most decidedly in a weeping way. Showers follow each other in quick succession, and "pray continue" is the prayer of every man having an interest in the early appearance of logs in the market.

We have noticed several of our citizens at work preparing, and some even planting their gardens. Rather early, we should say. Wait awhile before planting much, and we predict an earlier crop as the result.

SUGAR MAKING.—The past week can scarcely be reckoned a success in this branch of business. The "sugar water" is slow in putting in an appearance and the product of the week's work is correspondingly small.

"LET THERE BE LIGHT."—St. Paul has finally made arrangements to have its streets lighted by gas. There will be an occasion for rejoicing when the citizens of that benighted locality receive "more light on the subject."

See the new card of Messrs. Bohrer, Morrison & Reeves, Wholesale Grocers, in St. Paul. As honorable and upright business men, prompt and obliging in their dealings, they are achieving a deserved success. We heartily commend them to our merchants.

FIRST BOAT.—The *Minnie Will* made her appearance at Folsom's Landing on Monday morning, the 15th inst. Since that time it has run between this place and Stillwater. On the opening of Lake St. Croix, this boat will go into the towing business.

A new barge was launched at the Chicago Mill last week. Its dimensions are 120 ft. long, 20 1/2 ft. wide and 4 ft. deep. Ed. White was its builder. He is now engaged in putting up another barge to be the exact counterpart of the one just completed.

RETURNED.—Dr. Geo. W. Murdock returned home on Tuesday from New York City, where he has been attending lectures at the College of Physicians and Surgeons. His many friends give him a cordial welcome home. We understand that he designs locating here permanently.

FEATHERED GAME.—Wild fowl of every variety that most do congregate in our lakes and rivers, were early on hand this season, and in large numbers. Figs are plentiful than for many years, and hunters are on the *qui vive* preparing for the spring campaign in this quarter. It is rare sport when game is as plenty as it is hereabouts to sally out for a day's sport, with a good gun, a good dog and good luck. Tourists and travelers may make a note of this and visit this vicinity during the summer.

DISSOLUTION OF CO-PARTNERSHIP.—By a notice published this week, it will be seen that the co-partnership heretofore existing between Dr. Spicer and Griswold, has been dissolved by mutual consent. Dr. Griswold will remain and conduct the business as formerly. Dr. Spicer left the first of the week for Washington, to settle up certain accounts due him for services as surgeon during the late war. Rumors of a perniciious nature, were afloat soon after his departure, tending to compromise his honor. We trust but little credence will be placed in these reports, as they may eventually prove without foundation.

CHANGING.—The winter daily mail arrangements have been changed to the summer schedule. Dr. Bank & Co have during the winter served us with a daily mail, with the utmost promptness and dispatch. They now serve us with a tri-weekly, on Mondays, Wednesdays and Fridays. On alternate days the mail will be brought by the river route, thus continuing the daily mail throughout the year.

From all parts of the state come accounts of freshets attending the breaking up of the various streams. The rivers, and creeks are all booming, full to the banks. Our exchanges chronicle many fatal accidents. The St. Croix, at this point has not yet given evidence of more than an ordinary rise. The snow has wasted gradually and with little effect. Copious showers alone will bring up the St. Croix to more than a driving stage.

BUILDING.—We notice that our friend Baker is putting up an addition to his shoe shop, on Main St.

A new dwelling house has been erected near the Chicago Mill. Messrs. Guard & Carlson are pushing their new Carding Mill to completion. Other parties are engaged in getting materials on hand and many new buildings will be erected as soon as possible.

HAMILTON'S New Family Grocery Store has been nicely arranged and the complete stock so displayed as to be pleasing and attractive. There you will find just what you are looking for in the housekeeping line—even to a wife if you want it, we venture to say that Sam will fit out any number or variety of persons for smooth sailing on the voyage of life cheaper and more expeditiously than any other merchant.

THE CIRCUS IS COMING.—Geo. W. De Haven's Imperial Circus as will be seen by their advertisement in this paper and the flaring posters and small bills so conspicuously displayed and distributed about, will be here on Thursday, May 2d. The burning of the canvas for their magnificent pavilion, which so unfortunately occurred on its way from Chicago, compelled them to abandon their design of visiting this place last season. They have chartered the *G. B. Knapp* for the season, and will surely be here as advertised, if the thing is possible.

We received a brief call from Zane Bohrer, the popular representative of the popular Wholesale House of Bohrer, Morrison & Reeves, St. Paul, on Monday. Call again Z. and make a longer stay.

The residence of Erastus Guard, has been sold to Robert Glenning.

Silas Humphrey has bought the Munch house and adjoining grounds, corner of Second and River streets.

The *Minnie Will* has discontinued her tri-weekly trips to this place and gone to towing rafts below.

No boat has been to the upper landing yet, Folsom's landing being as far up as they have essayed to come.
